ABOUT ME

Frontend Developer with experience in building responsive, user-friendly interfaces using JavaScript, HTML, CSS, React, Bootstrap, Tailwind CSS, and DaisyUI. Currently working as a Frontend Developer Intern, gaining hands-on experience with Next.js, shadcn/UI, component styling, and modern frontend development workflows. Strong background in UI/UX testing and usability evaluation from previous QA experience. Highly motivated, detail-oriented, and continuously improving my frontend and AI-related skills to grow as a professional developer.

SKILLS

Frontend

React, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, Daisy UI, shadcn/UI, REST API integration

Backend

C#, SQL

Tools & Platforms

Jira, Redmine, Postman, Slack, Figma, Pixso, Git, GitHub

QA Skills

UI/UX Testing, Functional Testing, Regression Testing, Manual Testing, Test Documentation

Soft Skills

Collaboration, Communication, Problem-Solving, Attention to Detail, Adaptability

WORK EXPERIENCE

Frontend Developer

Innoscribe 

11/2025 – Present

Oslo, Norway

- Developing UI components and improving page layouts using Next.js and shadcn/UI, ensuring visual consistency and usability.
- Collaborate in cross-functional team to refine user experience.
- Expanding knowledge of modern frontend architecture and component-based design.
- Learning and preparing to contribute to upcoming AI-driven features within the product.

Intern

Media Mondays Oslo 

06/2024 – 06/2025

Oslo, Norway

- Managed attendee and participant data using digital tools.
- Conducted market and audience research to support engagement strategies.

Software Quality Assurance Engineer

DataSoft System Limited 

05/2019 – 08/2019

- Performed UI/UX, functional, and regression testing across multiple web modules.
- Identified and reported defects using Redmine and collaborated with developers on resolutions.
- Developed strong understanding of user behavior, interface quality, and cross-team collaboration in software development.

PROJECTS

Mobile Bank App [↗](#)

Tech: JavaScript / Tailwind / DaisyUI

- Developed a functional mobile banking application with secure mobile number-based login.
- Implemented key financial features such as cash-in, cash-out, peer-to-peer money transfer, and bill payment.
- Designed a clean UI for smooth user interactions.
- Built a transaction history screen displaying completed activities in an organized format.

Portfolio Website [↗](#)

Tech: JavaScript / CSS / HTML

- Created a responsive portfolio site for a organization allowing users to submit their CV and view portfolio details.
- Designed a clean user interface with clear navigation and user-friendly forms.

Social Media Website [↗](#)

Tech: HTML / CSS / JavaScript

- Built a social media-style website for creators to showcase their YouTube channel or Facebook page and connect with users.

Weather App [↗](#)

Tech : JavaScript / CSS / HTML

- Built a weather application using JavaScript and OpenWeather API, displaying real-time temperature, humidity, and city search results.

Moving Company [↗](#)

Tech: HTML / Bootstrap

- Designed and built a responsive website for a moving company using Bootstrap.
- Ensured mobile responsiveness and clean layout by utilizing Bootstrap components.
